Student must get enrolled or Submit the visa update to the college before Last date of Enrollment otherwise admission will be cancelled

Note: Some Colleges have same Start & Registration Dates and some have different start & Last Date for Registration, please read carefully, as per your admitted college.

It is also recommend to update the visa status to the college on the same day you receive the visa. As you all know, the volume of applications for MAY 2021 intake is very high and colleges are having limited seats for the programs. If the program student has paid for, will get full/over-subscribed before the student submits or provides the visa result, he/she will have to defer to the next intake or will have to change the program. In this case students won't be able to register in the program they paid for. It is very important points to be take care for.
